

Productivity Report

Last Modified on 03/15/2023 4:16 pm CDT

An Admin level user has access to this group-wide report on the web portal. It is also a subscription based report that can be emailed to the providers for their own productivity statistics.

1. Log in to portal.mdtech.com and navigate in the menu to Charge Capture > Reports > Revenue Management > Provider Productivity.

2. You may choose a date, one or multiple groups and if you'd like the report broken down by location, then click "Submit". This report will organize the providers by group and show by provider the total number of charges week to date, month to date and year to date. It will also show an average RVU per visit and the lag time (in days) between date of service and date the charges were entered in a month to date and year to date average - if this number is red, it is above average for the group.

Tip: If you would like to subscribe, unsubscribe or change the frequency with which you receive the emailed version of the productivity report, reach out to the support team at support@mdtech.com.
